ADVANTAGES OF GLASS OUTLET

COLORBOND® steel and accessories stocked at Virginia, Gold Coast and Newcastle depots only. Crane truck delivery to site is also available. Contact us for more information.

Wholesale & trade only supplier

Our focus is providing complete solutions to the trade only. This clear focus allows us to provide the best customer service & quality products to the trade.

High quality products

We pride ourselves on attention to detail in all aspects of sourcing and supplying products. We look domestically and worldwide for factories with the skills and equipment capable of manufacturing the highest quality product at a competitive price. Our quality control team regularly visit our factories to ensure our high standards are always being met.

Lowest price guarantee

Having regard to the costs of sophisticated sourcing, quality control management, operating distribution facilities & providing the best customer service, we pass on the lowest prices possible. We believe that complimentary business can only be achieved when we operate under this discipline.

One stop shop

To save you time, we aim to provide complete systems at one purchase destination with the best price. Being a one stop shop also enables us to control the quality of the whole system. We consistently update catalogues and online capabilities to improve customer experiences.

Delivery to your door

With multiple distribution centres across the country with products in stock & dedicated delivery trucks, we aim to provide fast delivery every time. As well as utilising our own trucks, we've developed strong relationships with key transport providers across Australia so we can deliver even when the job is not so close to home.

Easy installation

We design products with installation considerations in mind to ensure they are as easy to install as possible to save you time on site. Many products offered have handy installation advantages built in.

COLORBOND® STEEL FENCING

COLORBOND® STEEL MATERIAL WARRANTY* AVAILABLE, BACKED BY BLUESCOPE

Colorbond®

*Warranties are subject to exclusions, application and eligibility criteria. For full terms and conditions and to determine the eligibility of your product for the warranty visit bluescopesteel.com.au/warranties.

Introducing COLORBOND® steel to the family.

AUSTRALIAN MADE

Steel is painted and rolled in Australia to suit our environment.

IN STOCK

Pick up from depot or we can arrange onsite delivery.

ONE STOP SHOP

We supply all the extras needed such as hinges, latches, gate stiles and more.

WARRANTY INFORMATION

BlueScope is committed to quality service and support. By applying on-line you will ensure that your COLORBOND® steel material is permanently on record.

Download and apply for your warranty certificate today.

- 1) Apply at www.bluescopesteel.com.au/warranties
Sign up and register your details
- 2) Follow the prompts to complete your warranty registration

COLORBOND® steel fencing should not be used within one kilometre of the ocean or within the splash zone of saltwater or chlorine swimming pools.

FIRE PERFORMANCE

Fire resistance is increasingly important when considering building materials specification. COLORBOND® steel has been tested and has ignitability index of 0.

BETTER PRIVACY & SAFETY

Enjoy the complete privacy offered by COLORBOND® steel fencing or mix and match with slat screening top infills to customise privacy levels. With G550 high tensile steel, you can be assured of a high strength fence and associated safety.

MAKE SURE IT'S THE REAL THING

Be sure to check it's genuine COLORBOND® steel by checking for subtle engraving both sides of the fence infills spaced 600mm vertically apart. If you cannot find the engraving, it is not genuine COLORBOND® steel.

GETTING THE LOOK

With a focus on in-trend colours, COLORBOND® steel fencing provides a range of colour finishes and fence styles to add value to any property. Complete the look with gates and a range of extras such as screening top infills or under fence sleepers.

BLUESCOPE

Backed by over 50 years of innovation and production excellence, BlueScope steel is an icon of Australian manufacturing with a reputation of quality in the production and painting of steel. COLORBOND® steel made by BlueScope is the #1 choice for steel fencing to suit the Australian environment.

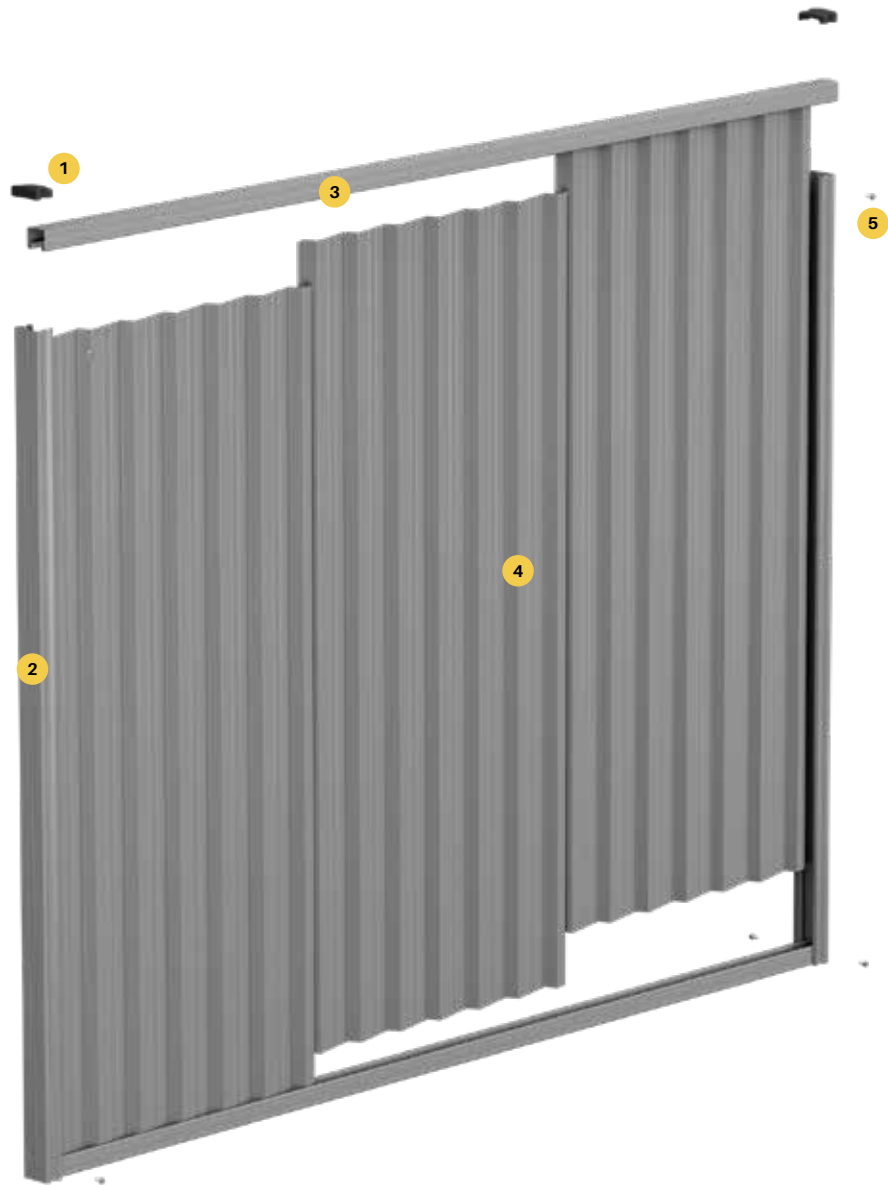

HASSLE FREE DELIVERY

We have everything in stock ready for express pick up at our innovative drive through distribution depots at Virginia, Gold Coast or Newcastle or we can arrange delivery to site across a large catchment area.

TYPICAL PANEL OVERVIEW

- 1 Post cap for channel post (single or double sided)
- 2 Channel post
- 3 Top & bottom rail
- 4 Infill sheets
- 5 Tek screws for affixing infill sheets to rails/posts

**PANEL DETAILS****PANEL WIDTHS**
2365mm, 3125mm**GATE WIDTH**
single gate 900mm**PANEL HEIGHTS**
1500mm, 1800mm,
2100mm**GATE HEIGHTS**
1500mm, 1800mm,
2100mm**AUSTRALIAN STANDARDS**AS 1397:2021: Steel Substrate & base metal thickness
AS/NZS 2728:2013: Paint Coating**Key Product Attributes:**AS 2331.4.7-2006 (typically 2000g) / Resistance to abrasion
ASTM G154-16 & ASTM D2244-16 / Resistance to colour change
AS 1530.1-1994: Not deemed combustible (steel substrate)**A 2365mm wide panel typically consists of:**

- 3 x overlapping infill sheets
- 2 x channel posts
- 2 x 2365mm wide top/bottom rails
- Tek screws (pack of 15)
- Top cap for channel post (optional)

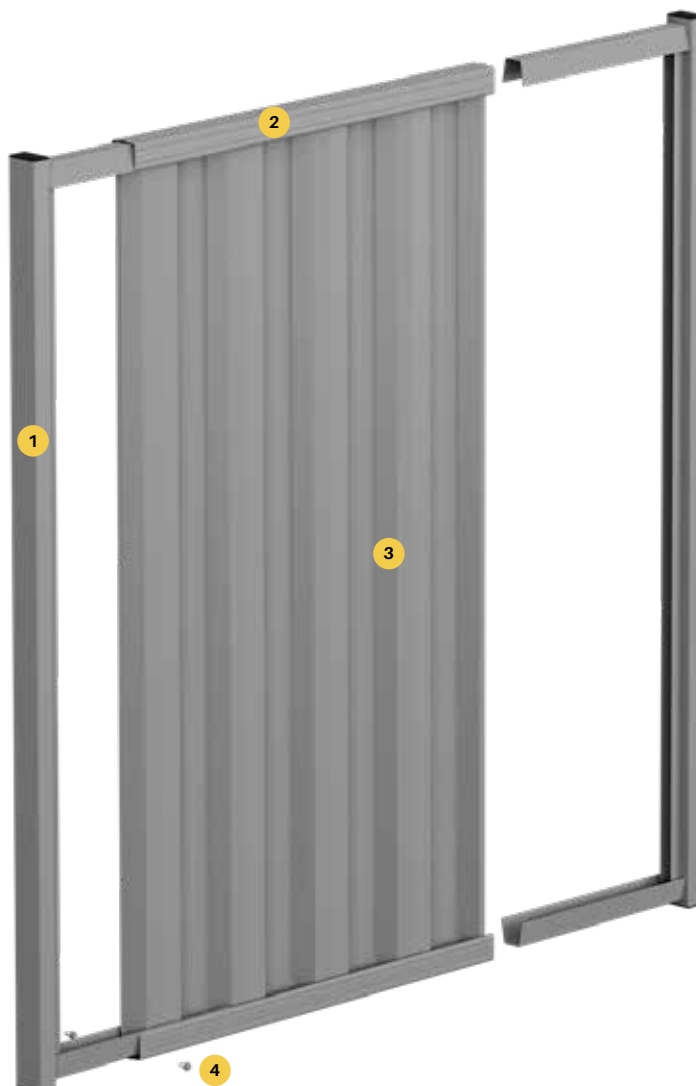

To achieve a 3125mm wide opening, 4 x infill panels with 3125mm top/bottom rails are used.

**TRADE TIP**

For centre to centre of post measurement, take the bottom/top rail width PLUS 10mm. So for a standard top/bottom rail width of 2365mm, centre to centre of post is 2375mm wide.

TYPICAL GATE OVERVIEW

- 1 **Gate stile**
(includes integrated premium vertical U channel & stile cap)
- 2 **Top & bottom rail**
- 3 **Infill sheet**
- 4 **Tek screws for affixing infill sheets to rails**

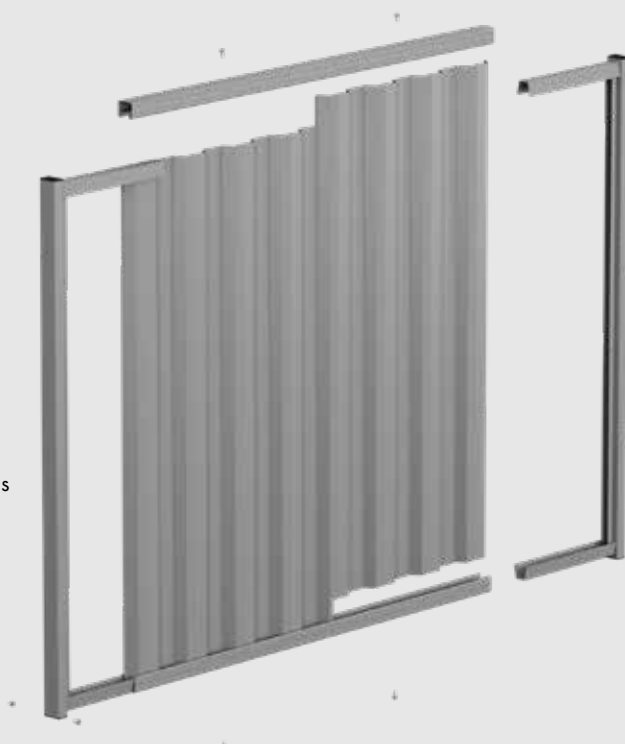

A gate typically consists of:

- 2 x gate stiles
- 2 x top/bottom rails
- 1 x infill sheet
- Tek screws (pack of 15)

Double gates also possible:

- Simply use 2 x infill panels

SWATCHES

Our colour range

COLORBOND® steel fences can integrate seamlessly with the roof, gutters or facias of a house. Select from a range of the most popular colour finishes. Achieve a consistent look with rails and panels of the same colour or highlight infill panels by framing with a contrasting colour channel post and rail.

PROFILE OVERVIEW

A GO-LINE

PREMIUM RIBBED PROFILE

0.35MM BMT (base metal thickness)

Our GO-Line premium panel features a distinctive modern symmetrical ribbed profile that visually compliments cladding, roofing and guttering systems.

B GO-ZAG

ZIGZAG PROFILE

0.35MM BMT (base metal thickness)

Our GO-Zag provides a symmetrical zig-zag profile that remains in-trend and popular in fencing applications with its crisp vertical lines.

C GO-TRIM

CLASSIC PROFILE

0.35MM BMT (base metal thickness)

Our GO-Trim provides a traditional single-sided profile featuring trapezoidal ribs.

It's all about how it's made

Tested in the harshest Australian conditions over the last 50 years, your COLORBOND® steel fence is far more than just 'paint on steel'.

- 1 The steel base is manufactured to meet relevant Australian Standards, ensuring strict adherence to the required grade and strength.
- 2 The steel base of the fencing panels is coated with Activate® technology*, BlueScope's industry-leading metallic coating that enhances corrosion resistance.
*Activate(R) technology is not available for fencing post and rails.
(Note: Fencing post and rails substrate is zinc-coated steel).
- 3 A thin pre-treatment layer is applied to enhance the adhesion of further coatings.
- 4 A polyester primer is baked onto the surface.
- 5 A topcoat of specially developed exterior grade lead-free paint (compliant with Australian Standard AS/NZS 2728) is baked on for enhanced resistance to chipping, flaking and blistering and to ensure the finish retains its look for longer.

FENCE PARTS

Universal Posts & Rails

Posts and rails are made from BlueScope G550 steel featuring a zinc-coated substrate. Both yield and tensile strength of steel have a guaranteed minimum of 550 MPa.

Tensile strength refers to the maximum amount of stress that the steel can be pulled or stretched without breaking.

Yield strength is the amount of stress applied before it will deform permanently.

Mild steel has an approximate MPa of 250.

COLORBOND® steel post & rail MPa is minimum 550 MPa reflecting its high structural strength and performance.

- 65mm x 65mm galvanised steel post powder coated
- 2.5mm wall thickness
- Includes welded on 8mm thick bottom plate with 2x Ø13mm holes – ideal for strong anchoring of in ground posts
- FREE top cap included
- Commonly used at the start/end of a fencing run. A one way channel post is affixed to a 65x65mm post to provided extra strength
- A 65x65mm post is also a neat solution at a 90 degree corner for affixing channel posts
- If installing a gate, use a 65mm post either side of gate opening. Posts provide a flat surface for mounting of hinges and latch.

D&D Gate stop

Black polymer finish

Order Code: **SS-GS**

D&D code: TCGS3

- Ideal gate alignment device
- Prevents damage to latches & hinges
- Greatly reduces gate-slam noise
- Tough, durable polymer + rubber bumper

Post plugs – 4 pack

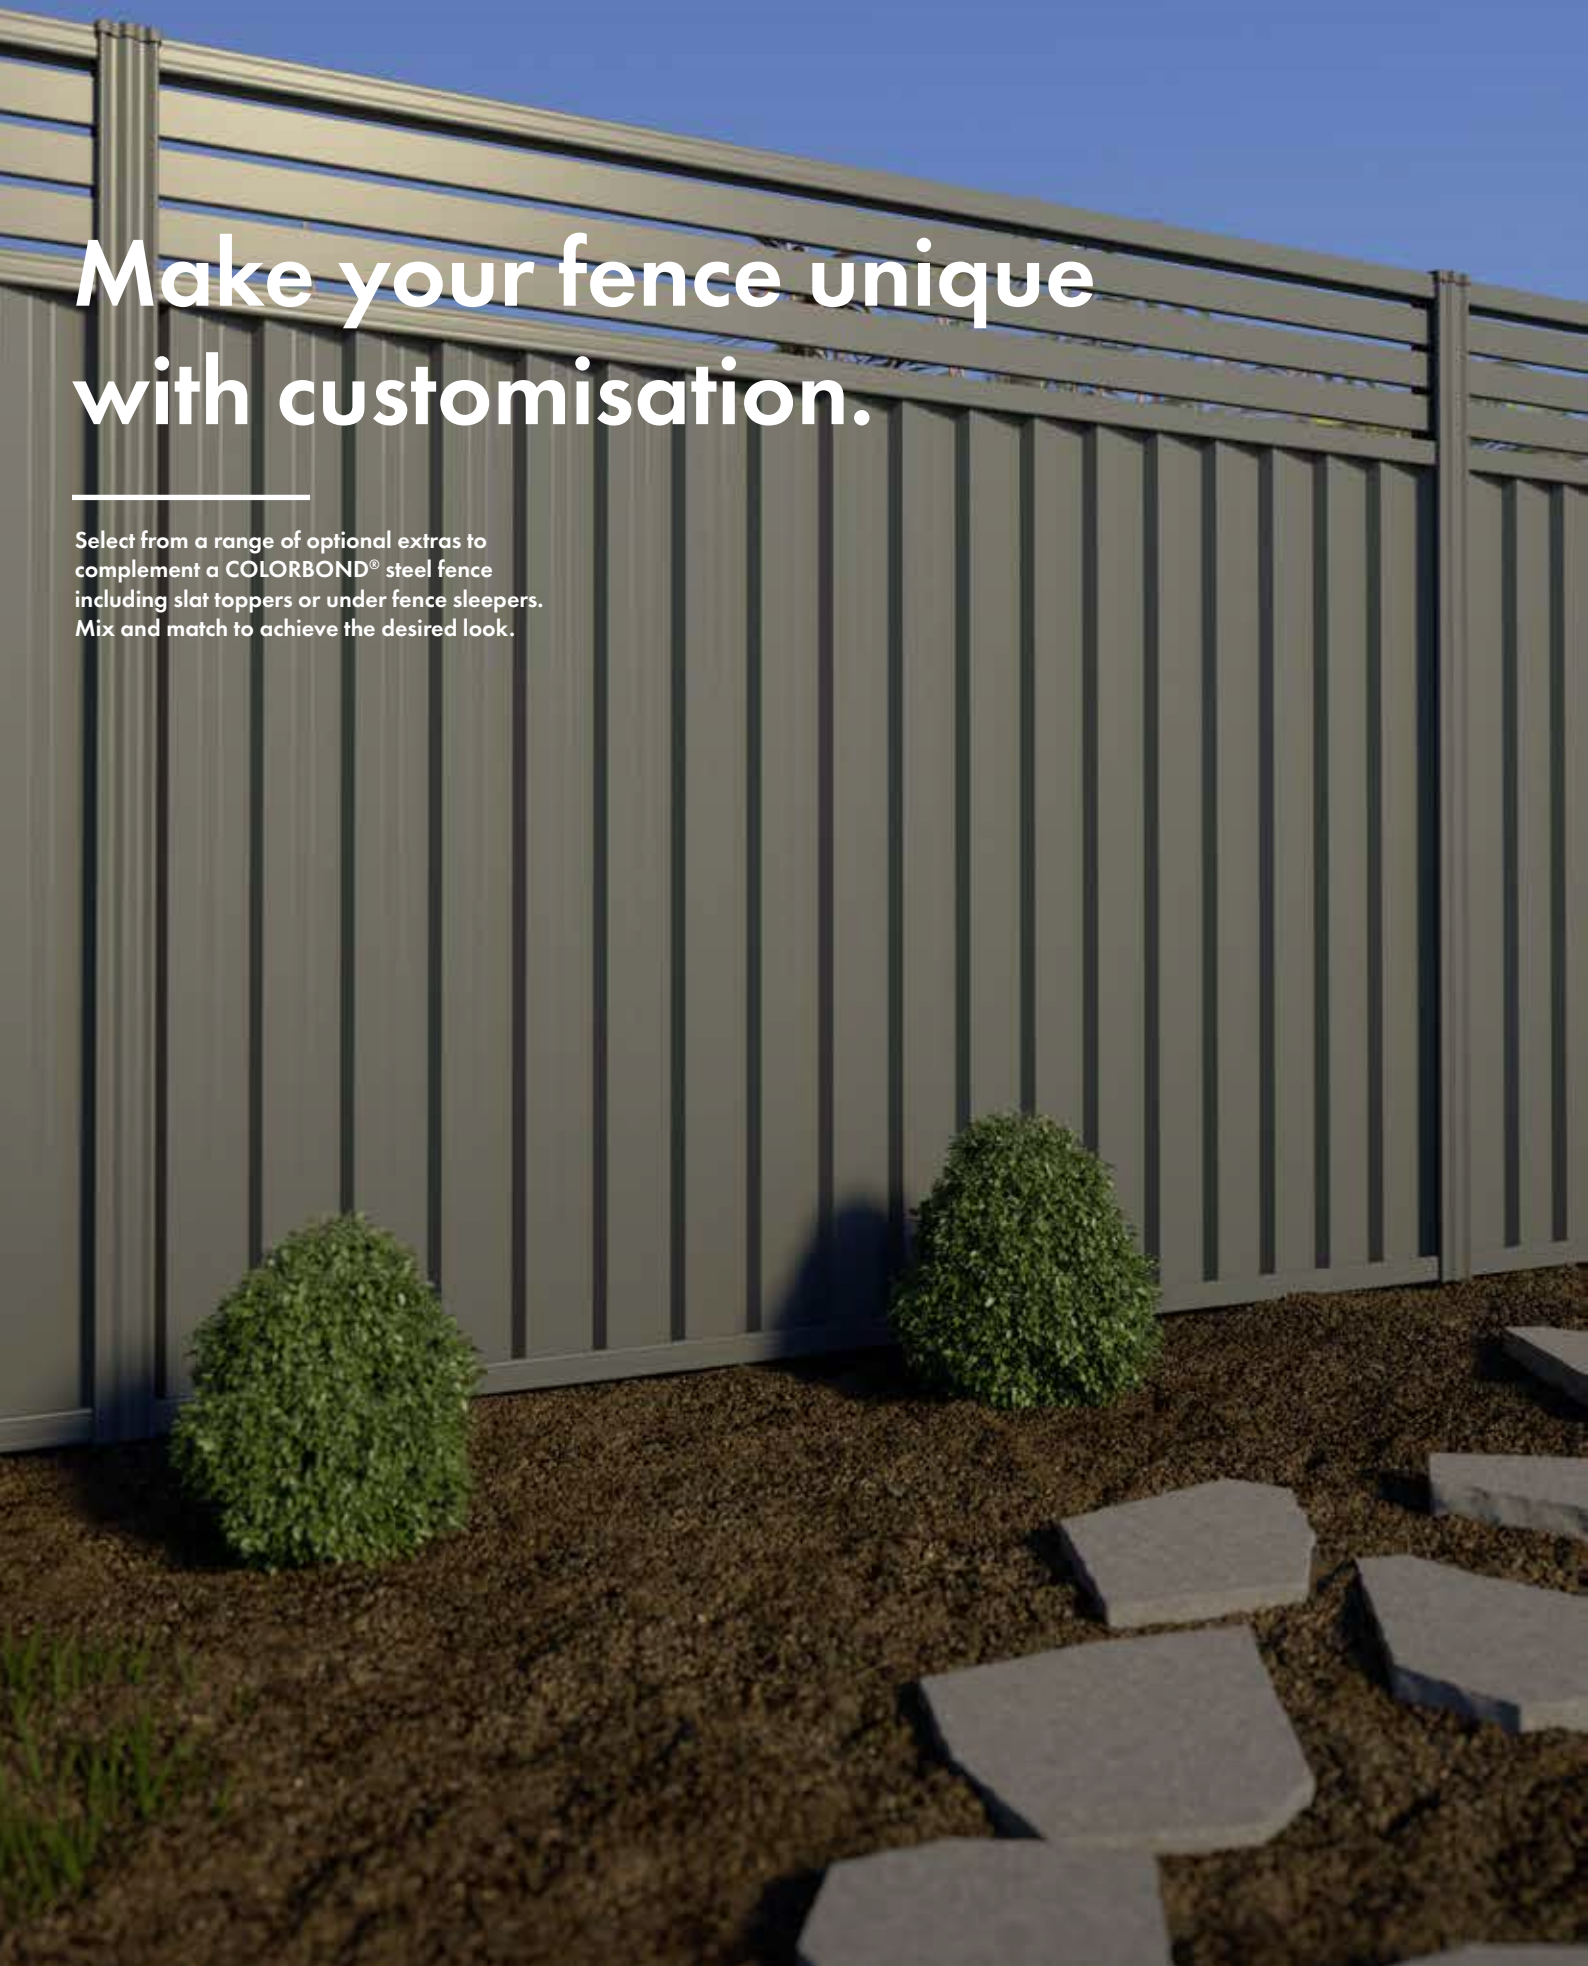

Black finish

Order Code: **SS-POSTPLUG-4PK**

- Ø32mm outer top suits 25mm hole
- Suits post wall thickness 1.5mm-3.2mm
- Cap holes in posts when fixing posts to structures

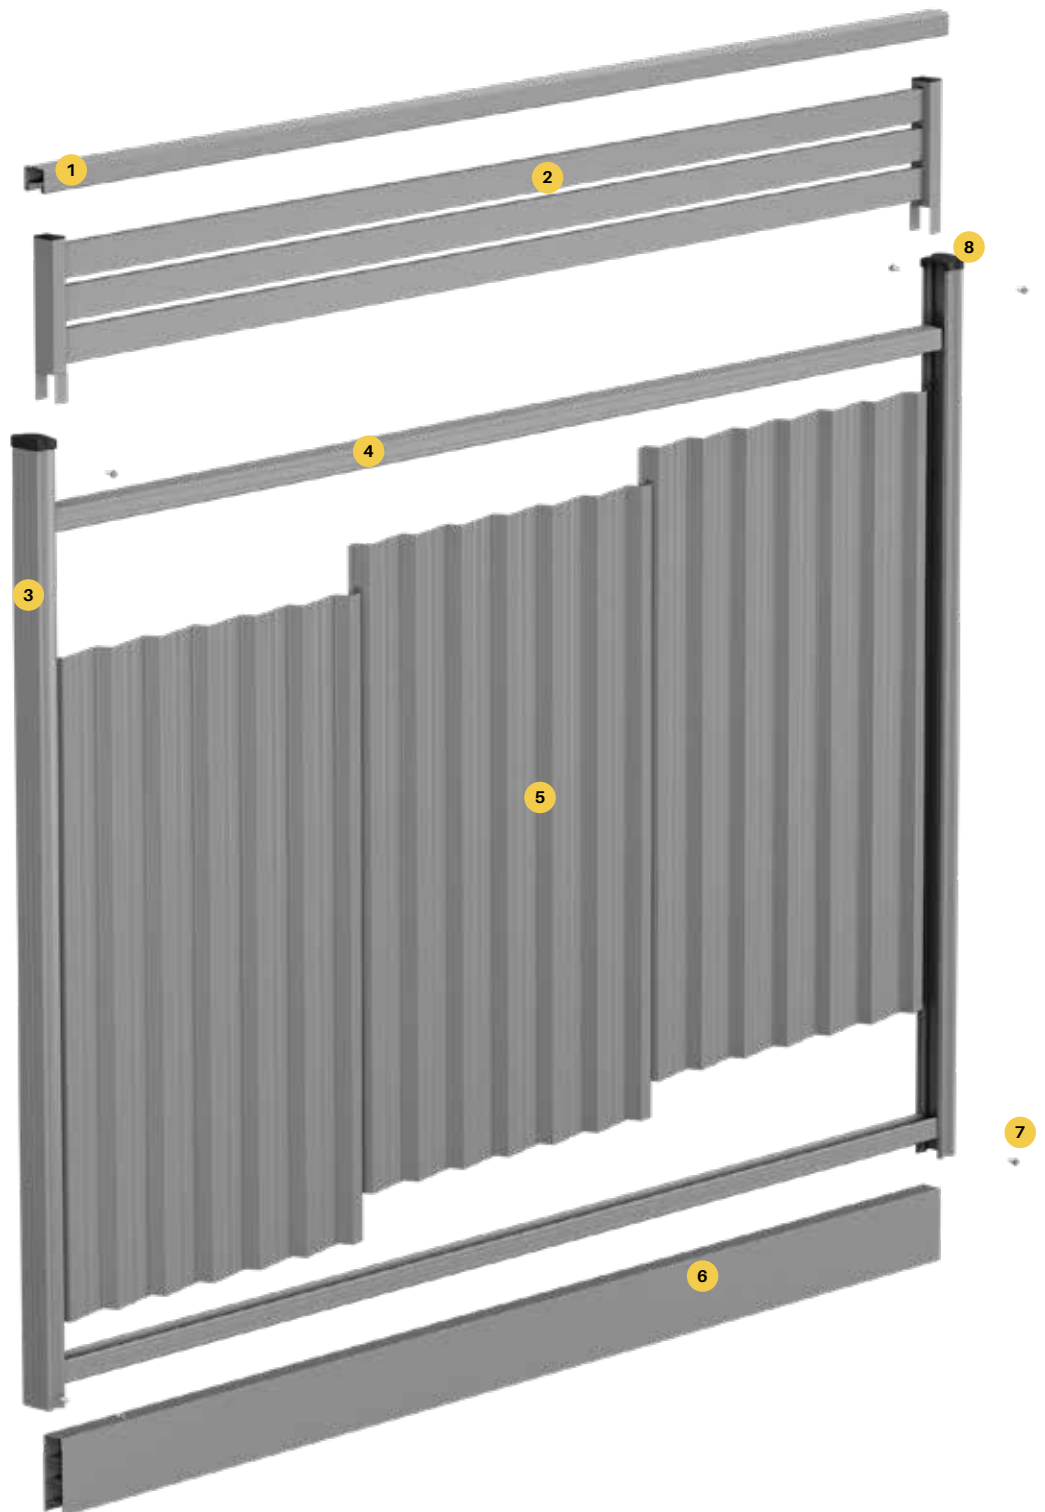

Make your fence unique with customisation.

Select from a range of optional extras to complement a COLORBOND® steel fence including slat toppers or under fence sleepers. Mix and match to achieve the desired look.

CUSTOMISE IT

- 1 Top rail above slot screening infill
(optional only – not mandatory as part of slot infill install)
- 2 Screening infill with side frames and aluminium slats
- 3 Channel post
- 4 Top & bottom rail
- 5 Infill sheets
- 6 Under fence sleeper
- 7 Tek screws
- 8 Post cap for channel posts
(single or double sided)

ALUMAWALL

Timber Sleeper

2365mm wide or 3125mm wide

Order Code: **CB-SLEEPER-2365**

CB-SLEEPER-3125

- 200mm high x 45mm wide available 2365mm or 3125mm long
- H4 treated pine
- Fits internal of COLORBOND® steel channel post
- Ideal for use when stepping fencing or changes of level/heights
- Easy width adjust – simply cut as required. Height adjustment also possible.

Aluminium Sleeper

2385mm wide

Order Code: **AWALL-2385-G**

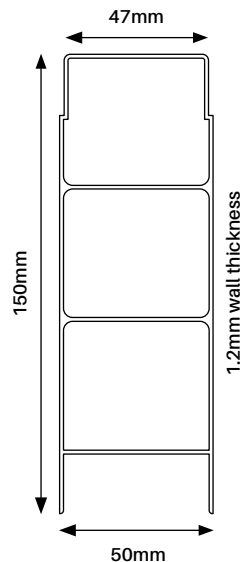

AWALL-2385-MN

AWALL-2385-PB

AWALL-2385-P

- 150mm high x 50mm wide x 2385mm long**
- Sturdy aluminium design with high quality powder coat finish
- Fits internal of COLORBOND® steel channel post
- Ideal for preventing weeds or debris from protruding through gaps under fence
- Use to level or increase base height of fence
- Easy width adjustment – simply cut to desired width
- Innovative designs allows for stacking

**** INSTALL NOTE :** standard COLORBOND® steel top/bottom rail is 2365mm providing channel post centre to centre of 2375mm. Aluminium sleeper may require slight width adjustment for standard post centres OR consider post centres of 2395mm when using aluminium sleepers under fence.

SCREEN TOPPER INSTALLATION

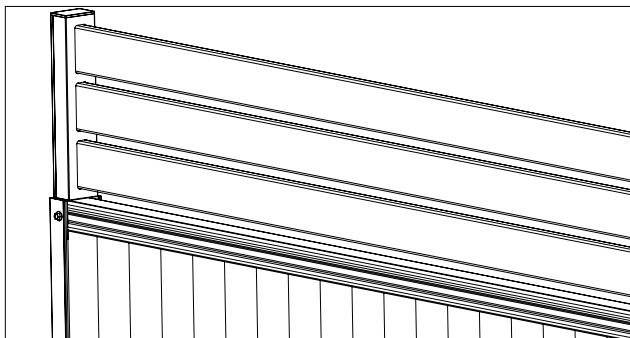

Option 1

TOPPER ABOVE C SECTION POSTS AND RAIL

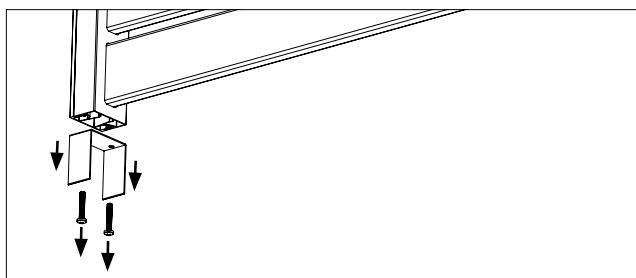

1

Install Topper by inserting the U-bracket located on the bottom of the topper between the top rail and C section post and secure post off both sides with tek screws.

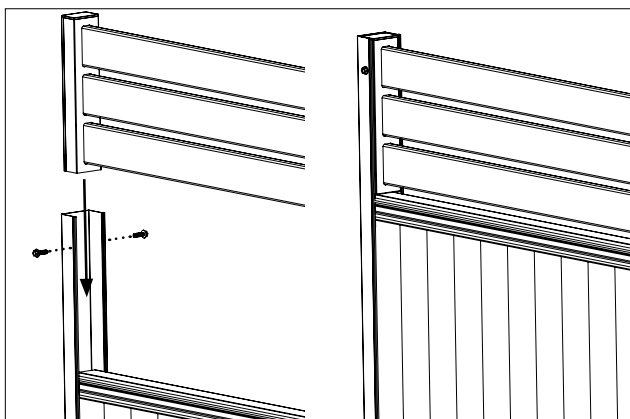

Option 2

TOPPER FITTED INSIDE C SECTION POSTS

1

Remove the U-bracket located on the bottom of the Topper by unscrewing the 2 screws.

2

Insert the Topper into the C section posts securing into position both sides with tek screw.
